DIGITAL ANALYSIS COMMUNITY OF PRACTICE

PROPOSED DATES: April 6 – 10, 2026.

TARGET GROUP | Officials from revenue administrations and ministries of finance who work with different aspects of digital analysis related to tax administration.

DESCRIPTION | Data and digital analysis are at the heart of effective modern tax administration. This meeting will bring together specialists from across the CCAM region with the intention of creating a community of practice (CoP) focused on data analytics. To establish the CoP, a workshop will be held at CCAMTAC offices in Almaty, Kazakhstan. The workshop will focus on the principles and benefits of establishing a CoP in digital analysis and will frame the future work of the CoP, including what topics to cover, goals, roles and responsibilities. The workshop will also include discussions on digital analysis skills and methodologies as well as tools, resources and best practices that can be leveraged within the community.

Participants are expected to actively contribute to presentations on country practices and exercises, with peer learning being a fundamental element of the workshop.

OBJECTIVES | Upon completion of this workshop the CoP is expected to continue with virtual meetings.

LANGUAGE | The workshop will be delivered in English language, with simultaneous interpretation to Russian.
