USING BIG DATA FOR THE COMPILATION OF NATIONAL ACCOUNTS

PROPOSED DATES: July 13-17, 2026

TARGET GROUP | National accounts compilers from national statistics offices/committees/bureaus

DESCRIPTION | The workshop will enable participants to improve their knowledge about best practice in using big data for the compilation of national accounts.

OBJECTIVES | Upon completion of this workshop, participants will be able to:

- Use satellite imagery to approximate output of agriculture

- Use satellite imagery to evaluate capital stocks

- Use satellite imagery for regional distribution of economic activities

- Manage big data by ingesting, storing, organizing, cleaning, transforming, interpreting, etc.

LANGUAGE | The workshop will be delivered in English language, with simultaneous interpretation to Russian.
